

CARPENTRY AND JOINERY APPRENTICESHIP

EMPLOYER FACTSHEET GROW YOUR OWN TALENT

Carpentry apprenticeship - Using timber products to create and install building components.

Key Information

Level	2
Duration	Typically 24 months
Entry requirements	- 16 years or over. - Please contact our Apprenticeship team for further entry requirements.
Delivery	A minimum of 30 hours of on the job training at work place, 5 days per week including 1 day to study theory at our Richmond campus.
Key Responsibilities	<p>The broad purpose of the occupation is working with wood-based materials and associated products to create and install building components. This typically involves shaping and cutting materials, installing finished materials like partitions, doors, staircases, window frames, mouldings, timber floor coverings and erecting structural components such as floor joists and roofs. This occupation includes two different options and people will either work on a construction site as a Site Carpenter or in a workshop as an Architectural Joiner.</p> <p>A Site Carpenter will prepare and install basic building components e.g. doors, straight staircases, wall and floor units and erecting structural carpentry and roof structures on a building site or in domestic and commercial premises.</p> <p>An Architectural Joiner will create building components by setting out, marking out and manufacturing basic architectural products, including doors, windows, straight staircases and associated ironmongery.</p>
Job Roles	Architectural joiner, Site carpenter
